Thank you for visiting the website of Keystone Capital. By accessing this website, you acknowledge and agree to accept the following terms and conditions of use (“Terms”), which may be updated by Keystone Capital at any time. Any updates to the Terms will be posted here and are effective upon posting. As Keystone Capital is under no obligation to alert the users of its website to such updates, you should consult this Terms & Conditions and Regulatory Information page each time you visit the website.

If you have any questions or comments about the Terms, please contact us at info@keystonecapital.com and (312) 219-7900.

1. Use of Website and Content

All content and information, and all trademarks, logos, copyrights and other intellectual property displayed on the website is owned by Keystone Capital or their respective owners. By visiting this website, you agree to not use any website content commercially, forward it as a mass distribution, post it on another site, or otherwise copy, distribute, download or modify any portion of it without advance permission. Other trademarks, service marks, images and logos may be owned by other parties, who may or may not be affiliated with Keystone. Nothing on this website shall be interpreted as granting, by implication, estoppel or otherwise, any license or right to use any content on this website without the written permission of Keystone or such other third party that may own such content. All rights not expressly granted are reserved.

2. Investment Disclaimers

Keystone Capital is an investment adviser registered with the United States Securities and Exchange Commission (“SEC”) under the Investment Advisers Act of 1940, as amended. Registration of an investment adviser with the SEC does not imply a certain level of skill or training.

All information contained on this website, including any transaction described therein, is for informational and/or illustrative purposes only. Statements contained on this website that are not historical facts are based on current views, forward-looking expectations, estimates, projections, opinions and/or beliefs of the Keystone Capital team. Such statements involve risks, uncertainties and other factors. You should not rely on these statements as if they were facts. This website is intended for the benefit of potential portfolio companies (including such companies’ senior management and ownership) of Keystone Capital. Potential investors in any Keystone Capital fund should reference the separate due diligence portals and other materials that have been prepared for their benefit and any potential investors use of or reliance upon is specifically disclaimed and limited as further set forth below.

The investments and strategies discussed throughout the website may not be suitable for all investors and are not obligations of or guaranteed by Keystone Capital or any of its affiliates. Nothing on this website is to be construed as a solicitation to offer investment advice or services. Information about investing in Keystone Capital funds is only available in the form of private placement memoranda and other offering documents. These documents contain information to help investors evaluate Keystone Capital funds’ investment objectives, risks, fees and expenses, among

other factors, before considering an investment. By using this website, you agree that Keystone Capital is not liable for any action you take or decision you make in reliance on any website content. Further information about Keystone Capital is also available in Keystone Capital's Form ADV Part 2, filed with the SEC.

Past performance is not necessarily indicative, nor a guarantee, of future results and no representation is made that any fund will or is likely to achieve results that are similar to those of Keystone Capital's or its principals' current or previous funds. Prior investments may have been made under different market, economic or other conditions than those in which future investments and/or strategies will be pursued, and as a result may not be replicated. Investors may lose part or all of their investment capital or face various other risks as described in the applicable offering documents.

Testimonials and endorsements reflect Keystone's and portfolio company management's opinions and beliefs regarding the company and the investment. Such opinions and beliefs are subjective, do not represent a complete assessment of the company, the market or Keystone's overall investment performance and cannot be independently verified. Such statements are being offered as references for purposes of demonstrating the benefits of working with the Keystone team and not on the basis of being an investor in a portfolio company or, if applicable, a Keystone fund. Portfolio company executives receive/received a salary and economics from the portfolio company. No executives were paid for their testimonial or endorsement. There is a conflict of interest in these unpaid testimonials and endorsements in that all speakers stand to benefit from Keystone's success and for the portfolio company executives specially, their company is owned or partially owned by a Keystone fund and are thus incented to provide favorable references.

Details on selected investment have been included for illustrative purposes only and have been selected in order to provide examples of the types of investments previously made by Keystone Capital and do not purport to be a complete list of investments. A complete list of prior Keystone Capital investments is available upon request.
